When you up let me know.

I don't know if you had sold him TB-7. If you can send me a list of what he is using now that would be great. If not no worries.

Enjoy your trip

All have increased WBC's. One is mild tie-up and other mild anemia. I am in Asia but if you trust him we can use blood builder on 1 horse and Equimass on other horse.

All three should be on series of TB-7
